## List Type: Business

The following lists are packages that we have put together from our main BUSINESS BASE BUDGET DATABASE.

The Business Base Budget list covers all industries, however the selections below are a few popular industries we have gathered, tidied and packaged up, and they are **READY TO GO NOW**.

If you can't see something on this small list, please contact us as we cover all major industries and most business types, and we can put a list together for you...below is just a fraction of the database!

All records contain **Business Name, Address & Telephone Number** in a nicely formatted Excel spreadsheet. (*Emails not available due to spam laws.*)

Budget data is cleaned annually – but we can also do an on-the-spot clean (via telephone number check) for 5c extra per record. Just ask!
